First Mennonite Church of Winnipeg (FMCW) was founded in the 1920s by Mennonites of German descent. We embrace music, education, and the arts as foundational elements for the formation and expression of faith. To ensure our community continues to grow and thrive in service to Christ, we established the FMCW Legacy Fund in 2018.

Supporting a vibrant and growing Legacy Fund in addition to regular congregational giving will enable us to expand our missions and service. It will also provide a degree of financial stability to help guard against drastic changes in the economy or demographic shifts in our congregation.

Each donation enhances the Fund's power. For example, ten bequests of \$10,000 will create \$100,000 in capital. Based on The Winnipeg Foundation's historical results, that \$100,000 investment in the Legacy Fund will pay out \$116,000 to FMCW over a 20-year period. At the same time, the original \$100,000 investment will grow to \$130,000, increasing the Fund's earning potential.

20 Year Fund Growth and Distribution
(For illustration purposes only)

A significant portion of fund growth is paid out to FMCW.

The original capital and a percentage of growth are retained to increase the Fund's growth potential and ensure future earnings.

Annual giving to the FMCW General Fund is still vital for ongoing operations and ministry.
